

Erfan Loghmani

Curriculum Vitae/Resume

Methods

Causal Inference, Active Learning, Machine Learning, Econometrics

Research Interests

Digital Marketing, Experimentation, Advertising, Health Economics and Public Policy, Behavioral Economics

Education

- 2021–present **Ph.D. in Quantitative Marketing**, *University of Washington - Michael G. Foster School of Business*, Current GPA: 3.81.
Relevant courses: Microeconomics & Econometrics Sequence, Interactive Learning, Dynamic Choice Models, Applied Microeconomics, Non-cooperative Game Theory, Natural Language Processing, Empirical Industrial Organization, Machine Learning for Big Data, Seminar on Machine Learning Methods
Advisor: Prof. Ali Goli, Prof. Amin Sayedi
- 2021–2024 **Master of Science in Business Administration**, *University of Washington - Michael G. Foster School of Business*, Seattle WA.
- 2018–2021 **Master of Science in Artificial Intelligence**, *Sharif University of Technology*, Tehran Iran.
Advisor: Prof. MohammadAmin Fazli
- 2014–2018 **Bachelor of Science in Computer Engineering**, *Sharif University of Technology*, Tehran Iran.

Papers

- **Loghmani, E.** and Goli, A., “Investigating the Impact of Advertising on Smoking Cessation: The Role of DTC Prescription Drug Advertising,” Accepted at **Marketing Science**, Available at SSRN
- Jain, L., Li, Z., **Loghmani, E.**, Mason, B., Yoganarasimhan, H. (2024). “Effective Adaptive Exploration of Prices and Promotions in Choice-Based Demand Models,” **Marketing Science** DOI: mks.2023.0322
- **Loghmani, E.** (2025). Aligning Language Models with Observational Data: Opportunities and Risks from a Causal Perspective, Available at arXiv
- Gastinger, J., Huang, S., Galkin, M., **Loghmani, E.**, Parviz, A., Poursafaei, F., Danovitch, J., Rossi, E., Koutis, I., Stuckenschmidt, H., Rabbany, R., Rabusseau, G. (2024). “TGB 2.0: A Benchmark for Learning on Temporal Knowledge Graphs and Heterogeneous Graphs,” Accepted at **Datasets and Benchmarks Track of the NeuRIPS 2024 Conference**, Available at arXiv
- Fazli, M., Alian, P., Owfi, A., **Loghmani, E.** (2024), “RPS: Portfolio Asset Selection using Graph based Representation Learning,” *Intelligent Systems with Applications*, 200348. DOI: j.iswa.2024.200348

- **Loghmani, E.**, Fazli, M., "Effect of Choosing Loss Function when Using T-batching for Representation Learning on Dynamic Networks," second round review at *Information Sciences*, Available at arXiv

Honors and Awards

- 2025 AMA TechSIG Doctoral Student Research Award Recipient
 2025 AMA TechSIG and DocSIG Rising Star in Tech & Marketing
 2025 AMA-Sheth Doctoral Consortium Fellow
 2025 ISMS Marketing Science Doctoral Consortium Fellow
 2025 James B. Wiley Endowed PhD Fellowship in Marketing, University of Washington
 2024-2025 The Evert McCabe Endowed Fellowship Program in Private Enterprise, University of Washington

Presentations

Aligning Language Models with Observational Data: Opportunities and Risks from a Causal Perspective

- 2025 Poster Presentation at the Twenty-Sixth ACM Conference on Economics and Computation (EC'25)
Investigating the Impact of Advertising on Smoking Cessation: The Role of Direct-to-Consumer Prescription Drug Advertising
 2025 Tobacco Online Policy Seminar (TOPS) Recording available on Youtube
 2024 Program In Health Economics And Outcomes Research Methodologies (PHEnOM) at UW CHOICE
 2024 UW-UBC Joint Marketing Conference

Teaching Experience

- Teaching Customer Analytics, Winter 2024
 assistant
 Teaching Pricing Strategy and Analytics, Spring 2022, Winter 2023, Fall 2024
 assistant
 Teaching Customer Analytics, Fall 2022
 assistant
 Teaching Analytics for Marketing Decisions, Winter 2022
 assistant

Work Experience

- Data Science **Stackline, January 2025 - May 2025.**
 Intern During my internship at Stackline, I applied econometric and causal inference methods to analyze how different application components impacted user behavior. I uncovered causal relationships that helped identify the value of specific product features. As part of this work, I identified the causal effects of loyalty programs on customer purchasing decisions, both within the same product category and across different categories.
- Technical **Rooberah.co, July 2019 - July 2020, June 2021 - August 2021.**
 Team Member At Rooberah.co, I played a key role in the development of a Software as a Service (SaaS) platform aimed at boosting online store sales through the utilization of experimentation and machine learning techniques like recommender systems. My primary responsibility involved designing and implementing innovative features. Throughout my term, I demonstrated my proficiency in coding and my ability to translate complex algorithms into practical solutions within a dynamic and fast-paced environment.

Software **Pushe.co**, May 2018 - February 2019.

Engineer At Pushe.co, I started as a backend developer, utilizing the Django web framework to create robust web applications. Later, I joined the Data team, where I designed and implemented data science methods for fraud detection and CTR prediction. Through machine learning and statistical modeling, I contributed to data-driven decision-making. My experience at Pushe.co showcased my versatility in software engineering and data science, delivering valuable solutions.

Computer skills

Advanced PYTHON (PyTorch, Tensorflow, Pandas), C/C++

Intermediate R, Stata, Matlab, Bash, PHP, javascript, Java, HTML, L^AT_EX, Linux

Familiar with Octave, Scala
